Arthritis Fitness (Aquatic) | Joint Venture – Mitigates the pain and limitations of daily movements, along with improving balance and overall strength through warm-water therapeutic programming.

Cardiac Rehab Maintenance Phase IV | Heart Healthy – Transitions cardiac patients that have finished Phase II Cardiac Rehab and are released by their physician into their maintenance phase. Participants' vitals are monitored and recorded each class to track progress.

Neurological Aquatic Fitness | NeuroH₂O – Exercise in a warm-water aquatic environment offers those with neurological conditions essential properties to maintain overall cognition, balance, endurance and flexibility.

Parkinson's Fitness | CLIMB – Improves quality of life for those living with Parkinson's through movement, stretching, focus on balance and posture along with creating camaraderie between participants and care-givers alike.

Weight Management | MOVE –Focus on setting realistic goals and developing new physical activity habits while pursuing a healthy weight. MOVE helps tackle co-morbidities which encompass high blood pressure, high cholesterol, elevated glucose levels and BMI that exceed 30.

Down Syndrome Fitness | Uplift – Improves overall health, especially cardiovascular and strength for individuals with Down Syndrome. Designed as a circuit-style workout, includes focus on balance, motor functions, coordination.
