Best Medicine Program

**BEST
MEDICINE
PROGRAM**
AVAILABLE ONLY AT

Fitness programs for individuals transmitting from or managing a medical condition or needing additional support to improve their level of physical activity.

Physician Referred Membership

\$100 discount on Enrollment Fee- Enter membership with a referral from a physician and receive discounted enrollment. Program includes a personalized assessment and access to the Best Medicine Program.

Arthritis Fitness (Aquatic) | Joint Venture – Mitigates the pain and limitations of daily movements, along with improving balance and overall strength through warm-water therapeutic programming.

Down Syndrome Fitness | Uplift – Improves overall health, especially cardiovascular and strength for individuals with Down Syndrome. Designed as a circuit-style workout, includes focus on balance, motor functions, coordination.
**Granger location only*

Arthritis Fitness | Walk With Ease – An exercise program by The Arthritis Foundation that can reduce pain & improve overall health. If you can be on your feet for 10 minutes without increased pain, you can have success with Walk With Ease.

Neurological Aquatic Fitness | NeuroH2O – Exercise in a warm-water aquatic environment offers those with neurological conditions essential properties to maintain overall cognition, balance, endurance and flexibility.

Cardiac Rehab Maintenance Phase IV | Heart Healthy – Transitions cardiac patients that have finished Phase II Cardiac Rehab and are released by their physician into their maintenance phase. Participants' vitals are monitored and recorded each class to track progress.

Osteoporosis Fitness | Bone Builders – Improve bone density and/or slow the progression of bone loss, reduce fall risk, and improve functionality and quality of life through weight bearing and balance focused workouts.

Cancer Fitness | Restorative Fitness – Improves muscle function, fatigue, cardio endurance during and after going through treatments; in a setting where patients feel safe and have the ability to connect with other oncology patients/survivors.

Parkinson's Fitness | CLIMB – Improves quality of life for those living with Parkinson's through movement, stretching, focus on balance and posture along with creating camaraderie between participants and care-givers alike.

Diabetes Fitness | MOVE – Develop exercise habits to pursue a healthy lifestyle for those with prediabetes, diabetes, or elevated blood sugars. Improve factors like insulin resistance, lower blood sugars, cholesterol & blood pressure to help decrease risk of other related conditions.

Weight Management | MOVE – Focus on setting realistic goals and developing new physical activity habits while pursuing a healthy weight. MOVE helps tackle co-morbidities which encompass high blood pressure, high cholesterol, elevated glucose levels and BMI that exceed 30.
